

**GIVE YOURSELF A FACELIFT**

"A strong brow is a great way to make a statement. Fill them in with a sharpened brow pencil using small, hair-like strokes that follow the natural growth of your arches. Top it off with a clear brow gel to hold them in place."

-VERONICA CHU

Try: CoverGirl Brow & EyeMakers Pencil, \$7

**SWITCH UP YOUR BRAID**

"This season's braids are harder, and less feminine and romantic. Get the look by creating a small 'Mohawk'-like French braid along your part.

Spray the hair to be braided with dry shampoo, to add grip, which will make the braiding process a lot easier."

**LET DOWN YOUR BANGS**

"The best way to wear bangs is just past your eyebrows, so they look a bit grown out—it's a sexier look. If you have a rounder face, try an asymmetric fringe that's shorter in the centre and longer on the sides to create a bit of a triangular shape, which will juxtapose nicely with your features."

-TONY MASCIANGELO

**RAISE YOUR LINER GAME**

"Experiment with bold eyeliner shapes using a light eyeshadow first so you have a stencil to help guide you. Fill it in with a liquid eyeliner tip that's firm and not too long to give you the most control. Start out with a thinner line along your lashes and build it as you go."

-VANESSA JARMAN  
Try: Rimmel London ScandalEyes Thick & Thin Eyeliner, \$10

**KEEP LIPS AU NATUREL**

"To get a natural nude lip, use a light layer of foundation over the perimeter of your mouth to highlight and prime. Apply a nude lipstick to the centre of your lips and work outward with your finger. If you have a slim lip shape, build them up first with a nude pencil."

-DINO DILIO

**BARE IT ALL WITH NUDE**

"A nude mani demands that your cuticles get extra attention. Apply a cuticle softener and gently push them back. Before filing, use the flat side of your nail file to buff the skin around your nails to slough off any dead or dry skin."
